★ If your vehicle comes within one of the marked (★) bands, please see Table 2 below. Vehicles of a certain weight and axle configuration that do not have Road Friendly Suspension (RFS) may attract a different rate of vehicle tax. You can check if your vehicle has RFS by looking at the Certificate of Conformity, Goods Vehicle Type Approval Certificate or by contacting the vehicle manufacturer. Further information can be found on the website at www.businesslink.gov.uk/RFS. If your vehicle does not meet the specifications given in Table 2, please refer to the Key table above for the rate of vehicle tax.

* If your vehicle comes within one of the marked (*) bands, please see Table 2 below. Vehicles of a certain weight and axle configuration that do not have Road Friendly Suspension (RFS) may attract a different rate of vehicle tax. You can check if your vehicle has RFS by looking at the Certificate of Conformity, Goods Vehicle Type Approval Certificate or by contacting the vehicle manufacturer. Further information can be found on the website at www.businesslink.gov.uk/RFS. Example: goods vehicles are taxed according to their revenue weight. A two-axled tractive unit with a revenue weight of 38,000kg must be taxed in either band E or band F. When taxed in band E, the vehicle can operate up to 38,000kg while being used with a three-axled trailer. It may also operate up to 34,000kg with a two-axled trailer and up to 26,000kg with a one-axled trailer without the need to re-tax or replat. If taxed in band F, the haulier benefits from greater flexibility as the vehicle can operate up to 38,000kg with a two-axle trailer fitted with road-friendly suspension.

When taxed in band E, the vehicle can operate up to 44,000kg while being used with a three-axled trailer.
